

# ELSAG STREET SENTRY™ LICENSE PLATE READERS FOR NEIGHBORHOOD SAFETY

## HELP YOUR LOCAL LAW ENFORCEMENT AGENCY KEEP YOUR NEIGHBORHOOD SAFER

Many crimes that occur in neighborhoods across the US involve perpetrators that use vehicles to get into and out of residential areas quickly. There are countless reports daily about home invasions, car break-ins and thefts, and suspicious vehicles that appear to be casing neighborhoods.

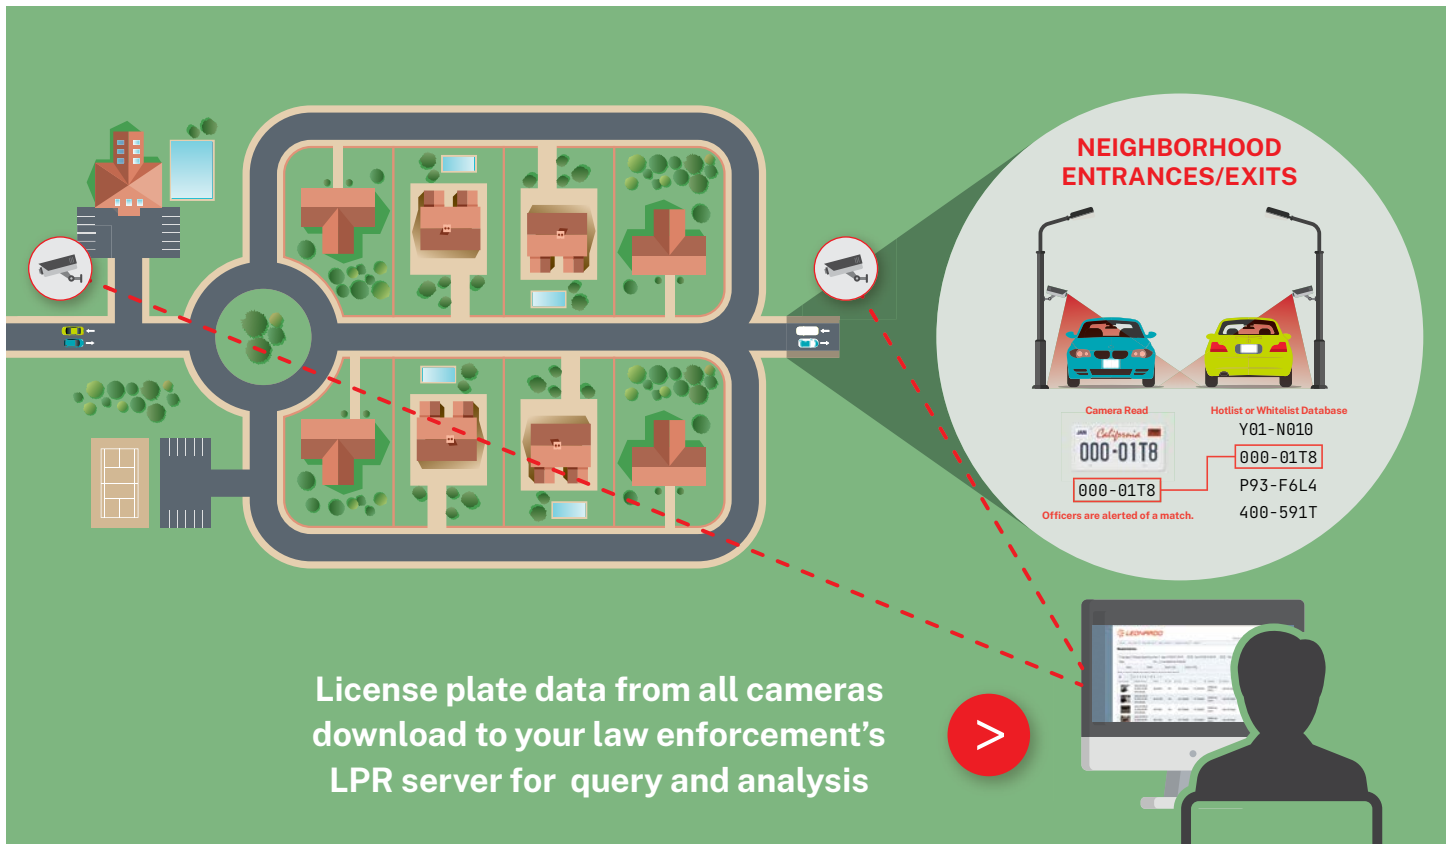

Now there's a way for your neighborhood to get critical information that can help keep you safer. ELSAG Street Sentry license plate readers (LPR) read the license plates of vehicles entering and exiting your community, offering these two critical solutions:

1. The LPR system will alert local law enforcement instantly if it reads a license plate number included on one of their databases of suspect vehicles.

2. The LPR system captures the following data for each license plate read, to aid law enforcement investigations:

- License plate number
- Vehicle make, type and color
- Date and time stamps
- GPS location of where the read occurred

Ask your neighborhood to partner with local law enforcement by purchasing ELSAG Street Sentry LPR systems for their use and your neighborhood's security. This type of partnership provides police with critical information to help locate suspect vehicles for real-time interaction or to aid investigations. Street Sentry LPR is an invaluable tool that police agencies across the country depend on daily to solve crimes and make communities safer.

## Features and Benefits of ELSAG Street Sentry LPR

- Affordable
- Easy to install
- Automatically reads license plates day and night in any weather, including extreme temperatures
- Captures plate data to aid local police departments' investigations
- Solar Powered
- Made in the USA

## Here's How an ELSAG Street Sentry LPR System Works:

1. Street Sentry cameras can be installed at key neighborhood entrance points.
2. Each camera reads the license plate of passing vehicles.
3. Each plate number is instantly compared to law enforcement databases of license plates suspected of being involved in unlawful activity.
4. The LPR data collected is stored on your local law enforcement's LPR server where it can be analyzed for evidence to aid investigations.
