

ELSAG Street Sentry®

Create a 24/7 LPR Safety Net

The [Street Sentry](#) is your agency's autonomous, solar-powered automatic license plate reader (LPR) built for real-time vehicle detection and interdiction. It works around the clock so your team can focus on responding, not searching.

Designed for fast deployment and maximum coverage, Street Sentry is your always-on crime-fighting partner. Its affordability and scalability make it possible to blanket high-crime areas, community entry points, and traffic corridors—creating an LPR safety net that leaves criminals nowhere to hide.

With over two decades of plate recognition innovation and trusted partnerships with law enforcement nationwide, Leonardo delivers a purpose-built solution that meets today's operational demands and budget realities.

Street Sentry System Includes:

- High-reliability LPR camera powered by AI
- Solar panel for autonomous operation
- Cellular connectivity in a weatherproof utility box
- Pole mount hardware

Deploy with Precision. Scale with Ease.

Ideal Locations:

- City borders & major entry points
- Parks, campuses, and public gathering areas
- High-traffic intersections
- Crime-prone neighborhoods

Every plate read is instantly checked against law enforcement databases—triggering real-time alerts for immediate interdiction. Captured Data Includes:

- License plate number & image
- Vehicle make, model, color, and type
- Date, time, and location of the read

Why Agencies Choose the Street Sentry
